Summary and Objectives

Dedicated developer specializing in Python, Machine Learning and Data analysis. My ultimate goal is to solve Ai and Data Science problems and I believe that by joining your company I can do this more efficiently.

Certifications

- Machine Learning (NAVTC)
- Python and Problem Solving (Hackerrank)
- TensorFlow (Deeplearning.Ai)
- Deep Learning (Deeplearning.Ai)
- Google Data Analytics (Google)
- Microsoft Azure Ai 900 (Microsoft)

Experience

Ai Developer Intern | July 2023 - June 2024

[Compute Universe](#)

- Worked on developing Ai Applications using LLMs and TensorFlow Framework.
- Worked on LangChain and OpenAI, and Groq to build Production ready applications.
- Used TensorFlow and YOLO to build classification and object detection projects

Backend Intern | January 2023 - June 2023

[Enigmatix](#)

- Worked as backend web developer to build applications in Django.
- Developed ZeroAi web application, Banks website and Portfolio websites.
- Integrated ML projects to Web applications.

Machine Learning Developer and Data Analyst | October 2022 – December 2022

[Fiverr](#)

- Worked on Basic Machine Learning Projects like Spotify Data Analysis, Intrusion Detection, Sentiment Analysis and [many more](#).
- Extracted and visualized insights from data using SQL, Tableau, Spreadsheets and Python.

Portfolio

- <https://salman-ai.netlify.app/>

Skills

- Machine Learning
- TensorFlow, Scikit-learn, Pandas, Matplotlib, LLMs, Generative Ai
- Data Analytics
- Data Visualization
- Tableau, Spreadsheets, MySQL
- Communication, Problem Solving, Analytical Thinking

Education

BS Artificial Intelligence | 2020-2024

The Islamia University of Bahawalpur

- CGPA: **3.89**
- Relevant Courses: Machine Learning, Deep Learning, Data Mining, Programming for Ai, ANN
